You will then be able to access the course units via our dedicated 24/7 online e-learning platform.

What materials/equipment do I need?

Access to a computer is required with a Word Processing function so you can create some of your assessment answers as a document for uploading. Some students like to utilise PowerPoint and Excel. You may also need to record some of your assessment tasks and upload as mpg files. Mobile phones can often be useful for this. No text books are required. Online students have the option of ordering the printed copies of the units at an additional cost of \$40 per unit including postage.

What is the assessment process?

There is no requirement for face-to-face assessment. The assessment tasks are provided online, to be completed after you have studied each section within the unit. Assessment activities include written activities, written questions and some written projects. All of your assessments are to be submitted through the online platform. Your answers may include documents, or videos demonstrating your practical application of the knowledge or skills you have acquired. Once you submit your assessments your trainer/assessor will automatically be notified and will assess your activity providing comments and feedback for you to see in the portal. If you are not graded as competent on your first submission, your trainer will provide feedback in order that you can resubmit your answer. Your nominated trainer is available to support you throughout your study via the online "Messages" feature.

How long will this course take to complete?

You have 12 months to complete this course, but as you work through the course material at your own pace, you may finish the course more quickly. This means you would be aiming to complete one unit each month. If you require additional time, you can apply for a paid extension.

What is the difference between Online Learning and Distance Learning?

Online Learning is online access only and the course units cannot be printed from the online platform. Distance Learning provides full online access but in addition the printed copy of the unit or units are mailed or couriered to you. Some trainees prefer the comfort of studying from printed material rather than their screen.

How much does the course cost?

The full BSB50420 course via Online Learning mode is \$1,545. The Distance Learning package price is \$1,845. This cost is fully inclusive of trainer support, assessment and certificate delivery. There is no GST component. Discounts may be available for group enrolments.

Hard copies of individual units are available for an additional \$40 per unit incl postage.

Postage is \$10 for an individual unit or \$30 for two or more units in the one package.

You may prefer to study one unit at a time which is \$209 per online unit or \$249 for online study with the printed manual provided. Some students have completed some study elsewhere and only require individual units to complete their qualification. We also have a Payment Plan option for an additional one-off \$40 setup fee, with a maximum term of 4 months.

How does a Payment Plan work?

When you enrol through our website, the payment choices that are available will show the option of ticking our “Easy Payment Plan”. You then fill in our easy one-page Payment Plan application form where you nominate whether you would like to pay off your course fee over 2 or 3 or 4 months. The \$40 setup fee applies to your first instalment. As an example, if you were to choose a 4 month plan for this course, your first instalment would be \$426.25. Then for the next three months your instalment would be \$386.25 per month. As you would provide your debit or credit card details for these instalments, the amount would automatically be debited on the same date each month until your full course fee is paid. As each instalment is paid, you will see your chosen units gradually added to your online study portal.

What career opportunities will it provide on completion?

Job opportunities and their titles vary across different industry sectors. Some job titles relevant to the achievement of this qualification are “Assistant Manager”, “Manager”, “Operations Manager” or “Supervisor”.

Are there workshops for this course?

This course is provided through online learning or in combination with the printed material. It is not available through a face-to-face workshop. However, you are allocated a trainer from the moment you commence so support is available online, should you require it. Trainees' questions may be of an administrative nature in some instances so in such a situation we would recommend contacting our friendly admin personnel in the first instance, for a fast response.

Can I get private tuition if I struggle with any topics?

We do have a Private Tuition option for trainees who feel they would benefit from a trainer's explanations. Private Tuition is conducted through Zoom, Teams, Skype or phone and is \$140 per hour. This hourly fee is in addition to the initial course fee. Trainees can choose to cover a variety of topics during these Private Tuition sessions and they are available by making a booking on 1300 765 400. There are 3 attempts available, if required, to pass each unit.

How will I be notified of my results?

When you have passed an assessment task you will be given the status of “competent” by your trainer. This will occur after you have submitted the tasks for each unit. Each unit will have what we refer to as “Knowledge Questions” and Projects. You do not need to wait for any assessment to be marked before continuing on with your next unit.
